

3 August 2017

Wood IP LLC is pleased to announce a strategic alliance with intellectual property law firm [Fitch, Even, Tabin & Flannery LLP](#). Our goal is to offer an expanded range of sophisticated IP legal services provided by exceptionally skilled lawyers with the diverse backgrounds and varied perspectives needed to succeed in today's global marketplace. The alliance is not a partnership, and Fitch Even and Wood IP remain separate legal entities.

Founded in Chicago in 1859, Fitch Even is a national leader in the field of intellectual property law, with offices across the U.S. and an international client base. In addition to offering a full range of services, Fitch Even's extensive trial experience informs the entire practice, with a reputation for delivering outstanding returns on the litigation investment. Fitch Even also has a long history of experience in handling every type of post-issuance patent proceeding in the USPTO, recently garnering notice as one of the top-performing firms representing patent owners at the PTAB. More information about the firm can be found on its [website](#).

The strategic alliance enables Wood IP and Fitch Even to support each other's complementary practices and to co-counsel on matters where our combined experience can provide enhanced value.
